

USMAN SAMI
Unity Game Developer & Web Developer
📞 0335-4563624 | 📍 Lahore, Pakistan

OBJECTIVE

Driven Software Developer with 2 years of experience in Unity Game Development (C#) and WordPress Web Development. Seeking to leverage game mechanics, debugging, and web performance skills in a dynamic development role.

TECHNICAL SKILLS

- **Game Dev:** Unity 2D/3D Engine, C# Scripting, Physics & Gameplay Mechanics, UI Integration, Profiling & Optimization.
- **Web Dev:** WordPress (Front-end & Back-end), Custom Themes, Speed & Security Optimization.
- **Core:** OOP, Debugging, Testing, Git Version Control, Problem-Solving.

EXPERIENCE

Unity Game Developer | 4Dimensions

(2 Years)

- **C# Scripting & Logic:** Developed core gameplay loops, physics controllers, and player mechanics using efficient C# code.
- **Optimization & Debugging:** Resolved performance bugs, optimized frame rates, and reduced memory usage using Unity Profiler.
- **Asset & UI Integration:** Integrated 2D/3D assets, UI canvases, animations, and audio components.
- **Team Collaboration:** Partnered with designers and QA to test, refine, and release smooth game builds.

Web Developer (WordPress) | WeTech House

(2 Years)

- **Full-Stack WordPress:** Built, customized, and maintained responsive front-end and back-end web applications.
- **Performance:** Streamlined site speed, improved loading times, and optimized overall system reliability.

EDUCATION

- **O-Levels** – Beaconhouse School System (2018)
- **A-Levels** – Beaconhouse School System (2020)
- **Chartered Accountancy (CA)** – Cleared 10 Papers (2022)

KEY COMPETENCIES

- **Communication & Leadership:** Team collaboration, task coordination, technical decision-making, and process optimization.
